***Notice of Non-Responsive Amendment***

The reply filed on March 2, 2005 is not fully responsive to the prior Office Action because all of the new claims are patentably distinct from the claims elected and examined in the Office action mailed July 12, 2004. Specifically, the claims as originally filed presented a road block with a foundation for mounting a bollard below the roadway surface; a piston received within a cylinder and defining upper and lower chambers; a flow line connecting a source of fluid into the chambers; and a circuit for sequentially or simultaneously operating the valves. While some broadening of the claims is permitted, the omission of so many elements combined with the recitation of all new elements, as discussing in the communication of February 3, 2005, presents a completely different invention than that as originally claimed. See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gary Hartmann whose telephone number is 703-305-4549. The examiner can normally be reached on Monday through Friday, 9am-6pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thomas Will can be reached on 703-308-3870. The fax phone numbers for the organization where this application or proceeding is assigned are 703-305-3597 for regular communications and 703-305-3597 for After Final communications.
